Subject: Proposal to contribute to poverty eradication

Dear Akshaya Patra Foundation Team

My name is Sarah and I am inspired by the incredible work your organization does in providing nutritious meals to children. I would like to share an idea for how our school could support your mission.

I propose organizing a “Healthy Meal Recipe” contest at our school. Students could work individually or in teams to create simple, nutritious, and affordable meal recipes that could be served to children in need. The winning recipes could be featured in a school cookbook, and the proceeds from selling the cookbook could be donated to your foundation to support the meal programs.

Thank you for all the work you do, and I hope this idea can contribute to your efforts to provide meals and improve the lives of children in India.

Best regards,
Sarah
